ABOUT ME

Working in a different sphere of business such as writer of science articles about energy and architecture, manager of the restaurant business, a waiter in Georgian and Balkanize cuisine and cooker in Armenian and Russian restaurants, I have mixed all my knowledge and experience to start learn to code by myself with helping by Rudolf Wardanian, one of the best Dutch Web Developer. During my education experience of

coding, I have focused on different resources such as Udemy, Coursera and Freecodecamp. Furthermore, a lot of info I have taken from YouTube. Hard work and lots of attention are helped me to get high results in programming.
